

Applied Economics Quarterly (AEQ)

Editor-in-Chief: Ansgar Belke

Co-Editors: Christian Dreger, Daniel Gros

»Applied Economics Quarterly« is an international journal publishing applied research with strong relevance for economic policy. Contributions to all arenas of economic policy are invited; in particular, growth, labor, finance and industrial organization. The journal's goal is to enhance economic policy-making by providing a forum for innovative and rigorous research. The journal is particularly interested in publishing work on European policy issues.

»AEQ« is particularly interested in the following types of submissions:

- Empirical analyses of topics relevant to all areas of economic policy (e.g. labor and social policy, education policy, health policy, industrial policy, monetary policy, trade policy, stabilization policy and growth policy)
- Policy evaluations
- Cross-country studies
- Applications of state-of-the-art econometric methods
- Shorter papers, notes and comments
